

ServiceWave 2010 CONFERENCE

13TH-15TH DECEMBER

Demonstration Evening ServiceWave 2010, FIA and FIRE

Julien Vayssière and Jennifer Pérez
ServiceWave 2010 Demonstration Co-
Chairs

PARTICIPATION

- Number:
 - Submissions: 31
 - Acceptance: 24
- Countries:
 1. Belgium
 2. Serbia
 3. Germany
 4. UK
 5. France
 6. Greece
 7. Italy
 8. Portugal
 9. Israel
 10. Norway
 11. Spain
 12. Switzerland
 13. Poland
 14. Mexico

FUTURE INTERNET TOPICS

- Flexibility/Adaptation
 - Networks
 - Contents
 - Environments
- Autonomy / Self-management
 - Virtual/wireless networks
 - Services
- Fault Tolerance
 - Networks
- Scalability
- Global service delivery
- Interoperability
 - Web services
- “green” network operation
- Trust and Privacy
- Community services
- Innovation
- Mobility
- Security
- Automation
- Testing
- Risk assessment
- Media interactive communication over internet
- Service composition
- Legacy systems
- License-protection
- Collaboration

FUTURE INTERNET PRACTICES AND TECHNOLOGIES

- Platforms:
 - Service-Centric
 - Multimedia content adaptation and delivery
 - Global service delivery
 - Monitoring
 - Testing
- Cognitive capabilities in networks:
 - rerouting → fault-tolerance networks
 - self-management
- Middlewares
- Rule-Driven Components
- Semantic Web technologies
- Content Adaptation Mechanisms
- Adaptation rules for supporting web services interoperability
- MetaData-Driven Media delivery
- Cognitive management systems
- Opportunistic networks
- Cloud Computing
- Automatic monitoring
- Security Management tools
- Open environmental service infrastructures
- Ontologies
- Testbed facilities
- Risk management tools
- Distributed repositories
- Model-Driven Methodologies
- Licensing technologies
- Service Level Agreement (SLA)
- Collaborative Environments

PROJECTS

1. Autonomic Internet
2. ECODE
3. IT SOA
4. SOA4All
5. S-Cube
6. OneFIT
7. PICOS
8. RESERVOIR
9. Self-NET
10. MASTER
11. ENVISION
12. MICIE
13. 3DLife – Bringing the Media Internet to Life
14. CREW
15. OneLab and OneLab2
16. REMICS
17. Trilogy
18. SENSEI

PROJECTS

1. Autonomic Internet
2. ECODE
3. IT SOA
4. SOA4All
5. S-Cube
6. OneFIT
7. PICOS
8. RESERVOIR
9. Self-NET
10. MASTER
11. ENVISION
12. MICIE
13. 3DLife – Bringing the Media Internet to Life
14. CREW
15. OneLab and OneLab2
16. REMICS
17. Trilogy
18. SENSEI

DEMONSTRATION CONTEST

- THE BEST DEMONSTRATION AWARD
 - Evaluated by the attendants in terms of:
 - Quality
 - Relevance
 - Originality
 - Winner:
 - Two pages in one issue of the NESSI newsletter
 - Announcement in the web pages of:
 - ServiceWave
 - Nessi
 - Future Internet

ServiceWave 2010 CONFERENCE 13TH-15TH DECEMBER GHENT
